MADE IN AUSTRIA

mit natürlichen Wirkstoffen

Natural Ingredients

Since ever, women have known how to maintain their beauty with herb essences, herb juices and herb lotions and that “there is a cure for everything” as an old saying goes. Most of the time, it is difficult to draw the line between cosmetics and medicine. So, there are various phenomena of the skin that may be attributed to both disciplines without hesitation.

The first essences for health, nursing and beauty care originate from the plant kingdom and up to nowadays it has been demonstrated to be true that well-known medical plants have their absolute cosmetic effects, too.

Regarding formulations in herb books of the 16th and 17th century, it was always referred to the knowledge and experience of famous ancient medicine experts (Hippocrates, Plinius, Galenus). Already in those days, the different ingredients from the plant kingdom already obtained acceptance. Today, in the 21st century, a lot of this knowledge is scientifically proven.

In our today’s technical times, it’s symptomatic to go back again to natural herbal ingredients as nature is granting us an abundant supply.

So, herbalism (cloistral medicine, phytotherapy) which is the basis of current modern medicine and still applied in medicine and pharmacy was discovered again in the aromatherapy.

From the beginning on, the company Speil has been specialized in natural products, such as essential oils and herb essentials and in the long run developed cosmetic products for optimum personal care.

exclusive line**

Speil's Spa- & Wellness Bathes

Give your body a time-out for a relaxing bath at home and indulge your spirit and soul with the fragrance experiences of our spa and wellness bathes.

Speil's spa and wellness bathes with essential oils have a **triple effect: Care – Cleansing – Aroma therapy**. They are specially processed in a way to optimally care the skin, gently clean and pleasantly relax the body and thereby increase your well-being.

The high ratio of high-quality natural oils meets the requirements which are imposed on the effect of an herb bath.

The natural oil is emulsified with vegetable palm oils allowing microscopically highest dispersion in the bath water granting effective absorption by the skin.

The foam formation of our bath additives increases the absorption of the valuable natural oils because evaporation of the oil is prevented by the foam on the water surface.

Speil's bath additives are weakly acid so that the pH-value (of natural skin surface) of the skin is not destroyed or impaired.

Furthermore, superfattening agents are added to the bath in order to reactivate the nutrient balance of the skin. Test yourself how the skin will become smooth and silky.

Features of Speil's Spa Bathes

Nourishing bath balsam

Speil's spa and wellness bathes are very skin caring and protect the natural skin surface. Skin becomes silky and smooth.

Pure essential oils and herbal extracts

Speil's spa and wellness bathes are produced from pure essential oils and extracts and are processed in a way that they are carried to the body most actively and thereby increase wellness effect.

Spa treatment

Speil's spa and wellness bathes enable you to do a spa treatment at home according to your own needs.

For children

Speil's spa and wellness bathes are also quite suitable for children. Particularly: chamomile, lavender and spruce needle.

Bathing time

Speil's spa and wellness bathes require a bathing time of 15 to 20 minutes at a water temperature of 35-38°C for the best result.

Best effect

Speil's spa and wellness bathes are most effective when not toweling oneself after the bath, but resting for half an hour enveloped in a bathrobe or towel.

Recommended and approved also for the massage by professional masseurs!

Categories

Massage and skin care creams

Massage and skin care oils

Nourishing vegetable oils

Massage and skin care creams

With chamomile, lime blossom oil or lemon oil

The ideal skincare product for daily care. Specially nourishing properties and valuable vitamin E provide soothing of the skin and protection from premature ageing.

The creams are well absorbed by the skin and are outstanding cosmetics for preventive body care. They are suitable for each skin type, particularly for poorly perfused skin.

Massage an skin care oils: also available with essential oils*

Massage and skin care oil

Top seller

also available with essential oils*

This high quality massage oil with nurturing purcellin oils and vitamin E is suitable for each skin type. A beneficial body care that is excellent for massage. This combination favors better blood flow of the skin and protects against drying out and desquamation. It has a high spreading ability and is best suited for full-body and partial massage.

Massage and skin care oils with pure vegetable oils

also available with essential oils*

✧ **Massage and skin care oil soft**

Made from almond seed oil and jojoba oil, skin-friendly and also suitable for sensitive skin.

✧ **Massage and skin care oil intense**

A combination of almond seed, jojoba, evening primrose and avocado oils, with high moisture-binding effect. The optimal skin care for mature skin.

✧ **Massage and skin care oil sure-grip**

Due to the high portion of jojoba oil, this oil has less spreading ability and is best suitable for special massage application (e.g. connective tissue massage).

Pure vegetable oils also available with essential oils*

Avocado oil: rich in vitamins and moisture-binding

This oil contains high portions of vitamin A, B, D and E and has a good spreading ability. This skin nourishing oil is beneficial for dry and cracking skin and has a silky-soft effect, particularly on hardened skin areas at elbows and balls of the feet.

Evening primrose oil: Contains natural unsaturated fatty acids, is skin regenerating and moisture binding

The evening primrose oil is very skin caring, nourishing and also very moisture binding. Due to the high portion of essential unsaturated fatty acids (linoleic and linolenic acids) that are involved in many cellular functions, such as cell growth and cell regeneration, the evening primrose oil generally improves the overall appearance of the skin. This oil is particularly suitable for the mature and demanding skin and nourishes rough and dry skin.

Almond seed oil sweet: Rich in vitamins and very skin-friendly (also for sensitive skin)

The almond seed oil is rich in vitamin A, B1, B2, B6 and E and is a very skin-friendly and skin caring oil. The almond seed oil is suitable for each skin type, for dry, rough but also very sensitive skin. The almond seed oil is preferably a typical skin care oil for children and babies, caring sensitive skin.

Jjoba oil (Jjoba wax): Moisture care for each skin type

Jjoba oil is less an oil than a fluid wax at room temperature.

It is rich in vitamin E and protects the skin against loss of moisture without leaving an oil film. This wax is very well absorbed by the skin and is suitable for moisture caring both dry and oily skin.

Jjoba oil contains myristic acid that contributes to the firmness of the cell membrane and the elasticity of the skin as well (e.g. for prevention of stretch marks).

Aroma therapy

For the aroma therapy and care, the massage oils are well suited as base oil and combine well with essential oils.

***Essential oils and fragrances:**

Bruce needle, Cajeput, Calamus, Caraway, Cardamon, Cedar wood, Chamomile, Citronella (Melissa indicum), Clary sage, Cypress, Eucalyptus, Geranium, Hayflower, Herbal essence, Ginger, Jasmine, Juniper berry, Lavender, Lemon, Lime blossom, Mountain pine, Niaouli, Olebanum, Orange, Palmarosa, Parsley seed, Patchouli, Peppermint, Rose, Rosemary, Salvia, Tea tree, Thyme, Vanilla, Ysop.
